If you are actively trading or investing in the financial markets, a StockCharts Membership is like buying the right tool for your craft. This wonderful product has made me a more skilled, more successful investor, as if I am a master craftsman." Lucas R. | member since 2009 If you think the charts and tools through your brokerage are enough, think again. The power of what I can do as a StockCharts Member, with the advanced charting and the scanning tools and the technical alerts sent right to my phone - WOW. I'm absolutely blown away by how much more I can do with StockCharts than the other tools and platforms I always thought were enough. Thank you for providing such an incredible product!" Linda R. | member since 2018 I've been a member for multiple years. My StockCharts Membership is the best and most reasonable financial instrument I have ever owned. I simply could not live without it. Thank you, thank you, thank you! What you provide is just great." Sandra P. | member since 2014 I love StockCharts! So many wonderful resources. The expert commentary in the blogs is must-read material each day. The speed in which the site operates is awesome - I'm a software developer and greatly appreciate this aspect. And, of course, the quality of the charts is second to none. I've spent a lot of money on other tools and hardly use them because I find StockCharts.com to be so much better." Chris S. | member since 2015 My StockCharts membership paid for itself within the week. I created my own scan with all the technicals that I look for, ran it once and found an amazing entry point on a new stock. I made enough on just that one trade to cover a full year of StockCharts membership. Use these tools the right way and they are virutally free!" Arnold K. | member since 2016 StockCharts.com has been an incredible resource for me as a new investor. I use the site every day to stay on top of the markets and keep track of what's happening in my portfolio. I've really felt empowered by the resources on the site and have learned so much from the experts on the blogs." Virginia H. | member since 2010 StockCharts are just unmatched anywhere else online.
